Department of Public Works—Highway Dept.

Cooler Temperatures, leaves changing colors and apple picking means only one thing, fall is upon us! This is the time of year when culverts become clogged with leaves, gravel and other debris. When culverts become clogged their function is diminished and leads to corrosion and a shorter lifespan for the culverts. Drainage is hampered causing the water to back up and eventually leads to overflows, causing damage to the roadways and your driveway. Driveway culverts are the homeowner's responsibility, and we encourage you to take a minute to clean out your culverts. Check out our driveway culvert maintenance checklist at: http://barrington.nh.gov/Pages/BarringtonNH_Highway/drivewayculvertmain.pdf

It's never too early to start thinking about winter!!

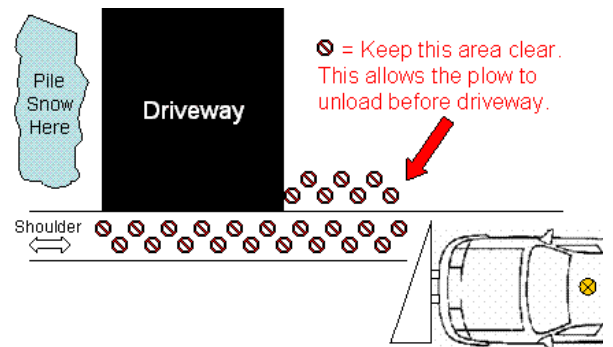

Parking

Please remember that the Town of Barrington has a year round parking ordinance that bans parking on all town roads. Any vehicles obstructing snow and ice removal operations will be towed at the direction of the Barrington Police Department and at the owner's expense.

Placement of Snow

The Town of Barrington has an ordinance against snow being plowed, shoveled, blown or placed onto a Town road or across the road to the opposite side. The Barrington Police Department will do enforcement.

Department of Public Works—Highway Dept.

All ordinances can be found on our website:
http://barrington.nh.gov/Pages/BarringtonNH_Highway/index

Mailboxes

Mail and newspaper boxes are allowed in the right away at the homeowner's risk. The following are suggestions for resolving the possibility of damage. 1. Mailboxes should, whenever possible be installed a minimum of at least 3 feet from the edge of the pavement. 2. Installation should be sufficiently sturdy to withstand the weight of heavy snow resulting from plowing operations.

The Town of Barrington does not replace mailboxes.

Trash Receptacles

If you have your trash picked up, please make sure that all bins are at least 10-15 feet in your driveway and not on the side of the road during snow removal operations.

Sand

Is available to the residents of Barrington and is located in the Citizens shed outside the Transfer Station gate. Residents are limited to 3 five gallon buckets. Bring your own container and shovel.

As always when you see the Highway Department Crews out in Town, please exercise courtesy and respect by being patient, slowing down and giving them plenty of room to work. Sometimes their views and hearing can be impaired by the equipment they are using. Our ultimate goal is for the continued safety of our work crews, our residents and all motorists.

Roads closed to thru traffic notifications and up-to-date road conditions will be posted on our website and on our Facebook page.

Some of the hikes highlighted include the state's largest northern white cedars in Clarksville that have been marked by bears for generations and the horse chestnut in Portsmouth that was planted by a signer of the Declaration of Independence in 1776. NH has 7 national champion Big Trees and a few of those are also shown.

After the presentation, Charlie Tatham, of the Barrington Conservation Commission, and our presenter Mr. Martin, will lead you on a hike in Barrington to view a big tree (or two) right here in town! Participants will have to drive (carpool) to the hike site at Samuel A Tamposi Water

Supply Reserve (SATWaSR) after the presentation. SATWaSR parking lot is on the west side of Route 125, which is just on the Barrington side of the Lee town line. Skywatch

September 28 @ 7 PM

Location: Field beside the Library - Cloud Date of Wed. Oct. 5th at 7PM

NH Astronomical Society members will bring their telescopes for people to look through. The event will be held in the field beside the library (near the park). We will be observing the planets Mars and Saturn, double stars, star clusters, and galaxies. A "Sky Watch" is simply a gathering of amateur astronomers with a focus on outreach and education for the public at large. A Sky Watch is by definition "beginner-friendly."

Dress warmly & bring red flashlights please. No white lights! A red light will not ruin your night vision as much as white light will. You can cover the lens of a regular light with red plastic or tail-light repair tape. A dim light will seem bright once your eyes become dark-adapted. The large telescopes brought by NHAS members will be set up and pointed towards interesting objects...this is a family friendly event. Parents are asked to watch children closely as the equipment utilized may have cables, or be knocked down easily.

Although sentiment against Wagner was at a fever pitch immediately following the murders, time and reflection have generated an ongoing debate as to the fairness of the trial and the validity of the verdict.
